About the Book

How hard can it be to round up one delinquent groom?

Ellie Lou Williams will do just about anything to save her ranch, even going undercover as a man to round up a fella who is late to his own wedding. The reward will more than cover the money she owes the bank and solve all her problems.

Caleb Martin agrees to one final job as a deputy U.S. Marshal before he starts his new life away from the trail and tracking criminals. What he isn't counting on is a mysterious bounty hunter who's determined to undermine his every step.

Will one reach their goal first? Or will they learn to lean on God and work together?
